

CALGAZ

DFR 2000* SERIES REGULATORS

The two stage DFR 2000* Series regulators are designed for use with instruments that utilize a pump to draw the calibration gas. The regulators provide the exact amount of gas the instrument pump requires. These simple-to-use regulators make calibration quick and easy by eliminating the need for sample bags, flow meters or special operator training.

Construction

Body	EN Plated Brass
Seat & Seals	Teflon® & Viton®
Piston	Brass
Washer	Buna N (2007 only)
Diaphragm	Buna N (PVC 2004 & 2006)
Bonnet	Aluminum
